+2 HIGH SCHOOL, KODERMA, JHARKHAND Intermediate of Science	2020
HIGH SCHOOL, KODERMA, JHARKHAND Matriculation	2018

PROJECT

E-COMMERCE WEBSITE

EJS | CSS | Bootstrap | JavaScript | Node.js | Express | MongoDB

- Developed a responsive secure e-commerce website, similar to Airbnb website.
- we used MVC format to write code.
- In this website we are implemented all core functionality like:- add, delete, edit, review.
- Utilized MongoDB built-in authentication and authorization system for secure login and user management.
- we are implemented map functionality from Mapbox.
- Used MongoDB for database.

QUIZ APPLICATION

JavaScript

- Developed an educational project with a focus on interactive learning experiences.
- Designed and implemented a dynamic Question Generator using JavaScript, complemented by minimal HTML and CSS for a seamless user interface..
- The project offers an engaging and enjoyable learning experience. Users can drop questions, make selections, and upon completion, view their results on the

TECHNICAL SKILL

- **Programming Languages:** C++, Python, OOPS, HTML-5, CSS-3, JS, Bootstrap, SQL, MERN Stack Development
- **Developer Tools:** Visual Studio, Eclipse, IntelliJ idea
- **Operating Systems:** Windows & Android

CERTIFICATION

- **Certificate of Completion:** PYTHON
- **Certificate of Completion:** C++
- **Certificate of Completion:** SQL
- **Certificate of Completion:** MERN Stack Development

STRENGTH

- Quick learner
- Ability to work in teams
- Strong problem solving abilities
- Decision making
